02 / ABOUT THE GAME

Meet 7 Cards Least: The Lowest Score Card Game

🎯 Objective: Lowest Score

Unlike traditional card games where accumulating high points wins, 7 Cards Least flips the mechanics: finish with the LEAST points to win.

⚡ 100% Free & Browser-Based

Play instantly on desktop, mobile, or tablet. No app store downloads, logins, or installation friction required.

🤖 Solo AI & Multiplayer

Practice anytime against 3 smart computer bots (AlphaBot, BetaBot, OmegaBot) or create private 4-digit code tables for friends.

03 / RULES & FLOW

How to Play: Turn-by-Turn Gameplay Flow

1

Deal 7 Cards & Set Joker

7 cards dealt per player. 1 face-up card sets the zero-point Joker rank for the round; 1 starts the Discard Pile.

2

Discard Phase First

Select 1 single card, equal rank set (e.g. 8-8-8), or suited run (e.g. 4♣-5♣-6♣) to drop on the Discard Pile.

3

Draw Phase Next

Draw 1 replacement card from either the face-down Draw Deck or the top face-up card of the Discard Pile.

4

Declare LEAST!

When hand sum is ≤ 10 points, call LEAST! Lowest score wins round (0 pts). Equal or higher call incurs 80-pt penalty!

Strategic Card Shedding & Scoring Rules

🎴 Card Point Values

Ace (A)

1 Point (Best standard low card)

Cards 2 to 10

Face Value (2–10 penalty points)

Face Cards (J, Q, K)

10 Points each (Heavy point liability!)

Table Joker Rank

0 Points (Wildcard setup rank)

Least Threshold

Hand sum must be ≤ 10 Points

💡 Early Face Card Dump

Discard J, Q, K in turns 1–3 to avoid getting caught with 10-point penalties when opponents call Least.

🃏 Zero-Point Joker Preservation

Hold Table Jokers to guarantee low hand totals and execute unchallengeable Least declarations.
